

The View Prices and Descriptions

Just to introduce my wife and I, my wife is Cornelia (57) from Germany and I am Bent (62) and from Denmark. We worked in Barbados from 2004 to 2006 renovating the airport and fell in love with the vibes of the people and the island and that is why we bought an old house here in 2007. We have over the last years built a total new house with 3 separate apartments on the old footprint and we are very happy about the results. We both love water, sun, beach and nature and are both kite surfers for more than 17 years. Love to chill out in front of our apartment.

The View is a Sea Front Property consisting of 3 separate Scandinavian Inspired apartments all facing the sea. You have the sea just 10-15 yards/meters away and you will see Turtles popping up for air, if you are very lucky you might see Stingrays jumping.
